Company

Introduction

Yixing Hengchi Rubber and Plastic Co.,Ltd is located Yixing, Jiangsu Province,China. Hengchi is less than three hours' drive far from Shanghai Pudong Internal Airport and Shanghai deepwater port, which provide advantages for Hengchi's international business.

Our company pays great attention to product quality, research and development. We have cooperation with Nanjing University of Technology and Engineering and Nanjing Forestry University in the field of R&D, and we are a high-tech corporation with R&D, production, processing and sale of WPC as a whole.

Yixing Hengchi Rubber And Plastic Co.,Ltd is an open-minded and aggressive company. We sincerely welcome friends from all over the world and any industry to visit our factory and cooperate with us.

公司简介

宜兴市恒驰橡塑有限公司位于江苏省无锡市宜兴，距上海浦东国际机场和深水港二个多小时的车程，为恒驰塑木走向世界提供了有利的地理条件。

公司拥有先进的生产设备和工艺，注重产品的质量和研发，与南京理工大学、南京林业大学等机构在技术上加强合作，形成了以塑木科研、生产、加工、及销售为一体的高新技术企业。

公司竭诚欢迎国内外友人、各界人士光临参观、合作！

WPC CHARACTERISTICS

塑木特点 绿色环保 装饰

Wood plastic composite (WPC) material is made of plant fiber like natural wood powder, bamboo powder and abandoned plastic through special process. It can not only reduce carbon emission and pollution on water and soil resources, but also can be recycled itself, is real green product.

The advantages of wood plastic composite (WPC):

- (1) 100% environmental friendly
- (2) Good sensory performance, has natural woodiness feeling and wood texture.
- (3) Water-proof, moisture-proof, insect-proof and anti-moth
- (4) No corrosion, no cracking
- (5) Simple installation, convenient construction
- (6) Good plasticity: can be nailed, planed, sawed, drilled
- (7) High cost performance, less maintenance, long service life.

塑木复合材料是以天然木粉、竹粉等植物纤维及废弃的塑料，经特殊工艺制成的，不但可以减少碳排放量和对水土资源的污染，而且塑木本身也可以回收利用，是真正的绿色环保产品。

塑木特点

- ▲ 100%环保
- ▲ 感观性能好，具有天然木质感和木质纹理
- ▲ 防水防潮防虫蛀
- ▲ 不易腐蚀、不易开裂
- ▲ 安装简单，施工便捷
- ▲ 可塑性强：可订、可刨、可锯、可钻
- ▲ 高性价比，维护少，使用寿命长

CO-EXTRUSION WPC **DECKING**

共挤木塑地板

绿色环保 装饰

02

The Co-extrusion WPC deck is composed by WPC core and engineering plastic outer layer. Advantages compared to normal WPC deck:

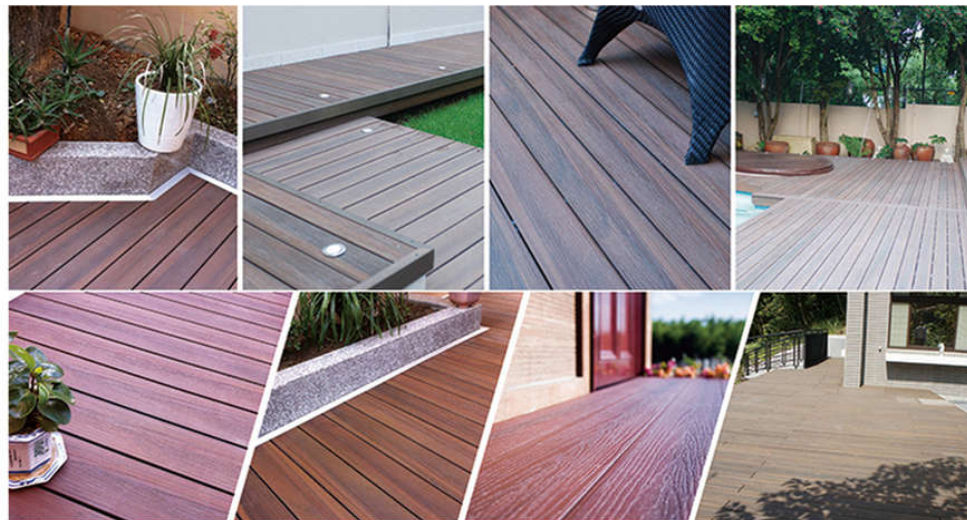

- ◆ Great performance in moist environment.
- ◆ Less expansion & contraction with temperature change.
- ◆ More available and durable colors can be chosen.
- ◆ Easier to clean the surface with water and detergent.

共挤木塑地板由木塑复合芯层和工程塑料表层贴合而成。与普通木塑制品相比：

- ◆ 耐潮
- ◆ 不易变形
- ◆ 颜色选择更多且耐褪色
- ◆ 易清洗

SYNCHRONOUS EMBOSSED **DECKING**

在线压花地板 绿色环保 装饰

03

The synchronous embossing is applying deeper wood grain to WPC deck. Advantages compared to normal wood grain:

- ◆ The deep wood grain is more vivid.
- ◆ Not easily scratched.
- ◆ Easier to clean the surface with water and detergent.

在线压花地板使用深木纹代替普通木纹。与普通木塑制品相比：

- ◆ 木纹更逼真
- ◆ 木纹耐刮
- ◆ 易清洗
